(EDIFACT D.96A - CREMUL)

Finnish payment types

Change log

Version	Date	Change
1	2013-10-07	Change log added
2	2022-10-01	Reviewed no changes
3	2023-04-19	Changed account numbers and customer names

Introduction

This document contains a description of the most common payment types, with examples, that can be received in EDIFACT (CREMUL, version 96 A) from Danske Bank to a Finnish account.

There is a specific description of each payment type, which segments with codes, qualifiers, etc. may occur.

For the sake of clarity the examples list a segment per line. In reality, several segments are sent in each line of a given length.

The following payment types are included in the description.

FI Internal transfer with or without separate advice

FI Credit entry without advice

FI Long advice credit entry with structured message and/or free text and/or reference

FI Reference giro

Incoming foreign payment

The Bank's purchase of foreign cheque

Cashpool transaction

FI Internal transfer with or without separate advice

Internal Danske Bank account transfer with a possible advice to the creditor, of a maximum of 41 lines of 35 characters.

FI Reference giro

The reference giro credit entry relates to all reference payments made without structured or free text message. Reference payments are payments with a reference number.

If the account is set up for bulk posting the type of advice for this payment type depends on the CREMUL ordered.

If CREMUL has been ordered with “Include bulk posting” (a) then at level B there will be one sum entry and detailed information about the individual payments will be advised at level C.

If CREMUL has been ordered without “Include bulk posting” (b) then there will be no information on the sum entry at level B.

Below you find examples on

Reference payments (a)

Cashpool transaction

This payment type relates to a credit entry in connection with account adjustment transactions. The entry matches a debit transaction. On the account statement/entry list the setoff account is indicated, i.e. the account to which the same amount is debited. This transaction type can be de-selected.
