

Danske Bank has several trusted partners that facilitates connectivity to our FX prices, as well as execution capabilities:

UPDATED APRIL 2024

Through a broad range of FX trading solutions, 360T is able to provide firms on both the buy- and sell-side with all the technology, services and tools necessary to support their individual business requirements.

With over 2,600 buy-side customers and more than 200 liquidity providers across 75 different countries, today 360T is uniquely positioned to help connect the global FX industry via our proprietary suite of web-based technology solutions. As the Deutsche Börse Group's global FX unit, we offer a full range of streamlined services across the entire trading workflow of FX and Short-Term Money Market products, enabling firms to transact in a more transparent and efficient manner, whilst also reducing operational and regulatory risk.

SealFx offers the next generation of TMS - we call it Treasury Automation System (TAS).

SealFx is the leading supplier of automated SaaS solutions for Hedge- and Liquidity services for international corporates. With the use of our different services, you can scale up your treasury management with increased control, large cost savings and free up time in the Treasury department to actively support the organization in the daily business to reduce risks and deliver stable margins. Integration is built-in at the core of SealFx services which enables quick, flexible, and effortless integration within 2-4 weeks.

SealFx has direct connectivity to Danske Bank as well as to 360T/FXall for automated executions for FX trades.
