

Introduction

The MT 101 consists of two sequences:

- Sequence A General Information is a single occurrence mandatory sequence and contains information to be applied to all individual transactions detailed in sequence B.
- Sequence B Transaction Details is a repetitive sequence; each occurrence provides details of one individual transaction. Fields which appear in both sequences are mutually exclusive.

Not all fields are mandatory. The status in the description are mentioned like this:

M- Mandatory

O- Optional

C- Conditional

Exchange instructions:

Danske Bank supports MT101 in all channels to Danske Bank Group when debiting Danske Bank accounts in Denmark, Sweden, Norway, United Kingdom, Ireland, Finland, Poland and Germany.

Payment instructions to debit accounts in Danske bank Estonia, Latvia or Lithuania are not supported in all channels and must be sent directly to the BIC adress of Danske bank in Estonia, Latvia or Lithuania via SWIFTnet.

MT101 files must include a header. Refer to the chapter 'Header' for further information

Appendix D - Estonia Field 50a

According to the Validated Rules in Swift handbook july 2012 version., there is the following conditions for the use of Tag 50a.

In the description above it is not mentioned that the Tag 50a can't be used in both sequence A and B.

If there is only one debit account, the ordering customer must be identified in field 50a (option F, G or H) in sequence A. Conversely, if multiple debit accounts are used, they must be identified for every transaction in field 50a (option F, G or H) of sequence B.

Consequently, field 50a (option F, G or H), must be present in either sequence A (index 5) or in each occurrence of sequence B (index 15), but must never be present in both sequences, nor be absent from both sequences (Error code(s): D61)

Field 50a (option C or L), may be present in either sequence A (index 4), or in one or more occurrences of sequence B (index 14), but must not be present in both sequences A and B.

Appendix E - Reference for the Beneficiary Customer

Formatting rules for use of RFB (field 70) in Danske Bank

Upon individual customer request Danske Bank can support Reference for the Beneficiary Customer /RFB/ followed by up to 16 characters.

Using /RFB/ in Estonia, Latvia and Lithuania does not require any individual adjustment.
